| C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | K                                             | N                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | C | K | P                                        | C | K                                                                                                                                                   | Z                                                                                                                                                                                                                         |   |                          |                       |                          |                                          |                                     |                                        |                                     |                                           |                                     |                                               |                                     |                                               |                                     |                                    |                          |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |   |   |  |   |   |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                          |                                  |                          |                            |                          |                  |                                                                                                                                                            |                      |                                     |                              |                          |                                |                          |                                         |   |   |   |   |  |  |
| <b>Beschreibung / Besonderheiten</b><br>Die überwiegend mesohaline natürliche Salzwiese befindet sich im W-Teil der Insel Bock am NW-Ufer und erstreckt sich außerhalb des Röhrichtgürtels auf flach vermoortem Küstenüberflutungsmoor und auf ehemaligen Windwatt-Sanden. Sie erstreckt sich auf einer Länge von rund 1,2 km und existiert ohne Beweidung. Seeseitig ist auf Sand / Schlick großflächig ein lückiger Andel-Rasen ausgebildet. Dieser geht über in z.T. vermoorte oligohaline Salzbinsen-Rasen, hier sind Arten wie Strand-Segge, Meerbinse, Strand-Simse, Weißstraußgras oder Salz-Schuppenmiere typisch. Zum Röhricht besteht eine breite Kontaktzone mit Schilf, Rohrschwengel, Rot-Schwengel, Salz-Teichsimse. Kleinflächige Sandeinwehungen sind mit Strand-Roggen, Strand-Hafer besiedelt. Es sind viele offene Bodenstellen und flache Rötten vorhanden. |                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |   |   |                                          |   |                                                                                                                                                     |                                                                                                                                                                                                                           |   |                          |                       |                          |                                          |                                     |                                        |                                     |                                           |                                     |                                               |                                     |                                               |                                     |                                    |                          |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |   |   |  |   |   |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |                          |                                  |                          |                            |                          |                  |                                                                                                                                                            |                      |                                     |                              |                          |                                |                          |                                         |   |   |   |   |  |  |
