| <b>Beschreibung / Besonderheiten</b><br>Kleiner Salzwiesenrest am Neuendorfer Wiek. Dominant ist das Weiße Straußgras. Es bildet einen dichten Kriechrasen. Dazwischen stehen die Strand-Aster, eine in M.-V. gefährdete Art, und der Strand-Dreizack (stark gefährdet). Vereinzelt finden sich auch die Bodden-Binse sowie der Strand-Wegerich. Auch diese Arten sind in M.-V. stark gefährdet. Von den Rändern her dringen Quecke und Schilf ein.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                |   |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   |   |                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                |  |                                                                                                                           |                                                                                                     |  |  |   |   |   |                                                                                                                        |   |  |  |   |   |   |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |  |  |   |   |   |   |   |   |   |   |   |   |   |  |  |  |  |  |  |  |  |
