| <b>Beschreibung / Besonderheiten</b><br>Hochstaudenflur eutropher Moor- und Sumpfstandorte im südlichen Abschnitt des „Kraubak“ westlich von Marlow. Dieser größtenteils extensiv gemähte Bereich wird von einer Gilbweiderich-Sumpfseggen-Hochstaudenflur und einem Sumpfseggenried, das aufgelassen ist, eingenommen.<br>In der relativ artenreichen Flurschicht ist Sumpf-Segge deckend. Zahlreich tritt Sumpf-Reitgras auf. Vereinzelt sind u.a. Wiesen-Segge (RL3), Schein-Zyperngras-Segge, Hirse-Segge (RL2), Kuckucks-Lichtnelke (RL2), Pfeifengras, Gemeiner Wasserhahnenfuß (RL2), Gilbweiderich und Flatterbinse vorhanden.<br>Das Substrat besteht überwiegend aus sehr nassem, eutrophem, degradiertem Torf. Eine extensive Mahd wäre für den Erhalt des Biotops vorteilhaft.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                               |   |
