| <b>Beschreibung / Besonderheiten</b><br>Verlandungsbereich des Schweriner Sees südlich Retgendorf.<br>Dem etwa 60 m breiten Großseggenbruchwald ist landseitig ein Feuchtwald mit Entwässerungszeigern vorgelagert. Seeseitig ist ein bis zu 250 m breiter Röhrichtgürtel vorgelagert. In diesem Röhricht ist noch ein etwa 1,5 ha großes Restgewässer vorhanden, das in Verlandung begriffen ist. Teilweise kommt in den Röhrichten und am Übergang vom Bruch zum Röhricht Weidengebüsch vor. Im Norden ragt der Bruchwald in den Campingplatz Retgendorf, dort ist eine Liegewiese aufgeschüttet. durch den Campingplatz wird der Bruchwald stark beeinträchtigt. Im Osten geht der Feuchtwald in Mischwald über. Im Süden treten Weidengebüsche auf. Der Biotop ist Bestandteil des LSG. Das Substrat bilden überwiegend Torfe. |   |                  |   |                                                                                                                                                                                                                                                                                                                                       |   |                                                                                                                                                                                                                                                                   |   |   |   |                                                                                                                                                                                                                             |   |                          |                                                                                                                                                                                                                                                                                                                                                                                                                  |   |   |   |   |   |   |   |   |   |  |                  |  |                                     |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                   |  |  |  |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |
| Bem.: Dieser Bogen wurde im Rahmen von Kreisgrenzen-Anpassungen aus 0404-442B4006 gedoppelt!<br>Die Beschreibung bezieht sich auf die gesamte Biotopfläche. 10.06.2009, J. Schubert                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |                  |   |                                                                                                                                                                                                                                                                                                                                       |   |                                                                                                                                                                                                                                                                   |   |   |   |                                                                                                                                                                                                                             |   |                          |                                                                                                                                                                                                                                                                                                                                                                                                                  |   |   |   |   |   |   |   |   |   |  |                  |  |                                     |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                   |  |  |  |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |
