                                                                                                                                                                                                                                                                                                                    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| <b>Beschreibung / Besonderheiten</b><br>Das recht kleinflächige in einer sanften Senke gelegene Biotop weist eine sehr abwechslungsreiche Vegetation auf. Das Uferseggenried befindet sich im westlichsten Biotopteil. Hier kommt auch die Sumpfschilf häufig vor. Nach Osten schließt sich ein kleines, bultiges Steifseggenried an. Dieses wird von der Gilbweiderich-Flatterbinsen-Hochstaudenflur umrahmt. Hier treten Wasserknöterich, Sumpfreitgras, Wasserschwertilie und Sumpflabkraut auf. Im östlichsten Biotopteil ist das Schilfröhricht zu finden. Wichtiger Begleiter ist hier das Rohrglanzgras. Bodensubstrat ist ein sehr feuchter - nasser, eutropher Lehm. Das Biotop ist größtenteils von Acker umgeben.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |      |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |   |
