| <b>Beschreibung / Besonderheiten</b><br>Der Biotop befindet sich in einer größeren vermoorten Senke, die großflächig entwässert wird und als Grünland genutzt wurde. Der eutrophe feuchte Torfboden ist degradiert.<br>Eine rohrglanzgrasreiche Sumpfschilf-Flur mit Schilf bestimmt den Charakter des Biotopes, besonders in den Randbereichen ist sie verzahnt mit einer stärker gestörten Rohrglanzgras-Flur. Der Biotop wird von Ruderalflur umgeben.                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                         |     |   |                                                                                                                                                                                                                                                                                                                                       |   |                    |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |   |                                                                                                                                                                                 |     |  |     |  |                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                         |     |  |                                                                                                                                                                                                                                                      |  |                                                                                                                                                                                       |                                                                                                                                                                                |    |  |          |   |    |   |     |   |                                                                                                                                                                                                                                       |   |                                                                                                                                                                             |                                                                                                                                                                               |   |   |   |   |                                                                                                                                                                                                                                                              |   |   |   |   |   |   |                                                                                                                                                                                     |   |                                                                                                                                                                                                                            |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                     |  |  |  |  |  |  |  |  |  |  |  |
