| <b>Beschreibung / Besonderheiten</b><br>In einer von Laub- und Mischwald umgebenen Senke befindliches Kesselmoor. Es dominiert eine Torfmoos-Flatterbinsen-Flur, welche zumindest fleckenweise reich an Sumpfcalla ist (zahlreiche Rhizomfunde). Diese Flatterbinsen-Flur nimmt überwiegend den Randsumpfbereich des Moores ein (im Nordosrten ist ein Schilf-Röhricht ausgebildet und im Westen kleinflächig ein Rohrkolben-Röhricht). Ansonsten ist die Flatterbinsen-Flur aber auch mit den nachfolgend beschriebenen Vegetationseinheiten verzahnt. Dieses sind verschiedene Gehölzgruppen: dichte Torfmoos-Ohrweiden-Gebüsche und Torfmoos-Schnabelseggen-Birken-Gehölze. Im Westteil des Moores sind innerhalb eines Torfmoos-Schnabelseggen-Birken-Gehölzes vereinzelte Bulten des Scheidigen Wollgrases vorhanden (Restvegetation ehemals ärmeren Nährstoffverhältnisse). Ebenfalls mit der Flatterbinsen-Flur verzahnt sind kleinere Torfmoos-Schnabelseggen-Riede. |   |                  |   |                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                         |           |                                                                                                                                                                                                           |                                                                                                                                                                                                              |                                        |                                                                         |   |                          |   |  |                                                                                        |                                                                                      |                                                                                                                                                                                                         |   |   |                                                                                                                                                                                                                            |   |   |   |                                                                                                                                                                                                              |   |                                                                                                                                                                                                                                                                   |   |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                  |  |  |  |   |   |   |   |   |   |   |   |   |   |   |   |   |                                                                                                                                                                                                                                                  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
