| <b>Beschreibung / Besonderheiten</b><br>Auf der Trasse der Stromleitung, die von SO nach NW das Kartenblatt durchquert, hat sich in einer kleinen, flachen Senke ein artenarmes Sumpfreitgras-Sumpfschilb-Ried ausgebildet. Beim Standort handelt es sich um sehr feuchten Antorf. Großflächig begrenzen Ruderalfluren das etwa 220m² große Punktbiotop, kleinflächig grenzt außerdem ein Graben an. |   |                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                        |                                                |                          |                                                                                                                                                                                                                                                                                                                                      |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |   |  |                                                                                                                                                                                                                                                                                                                                    |  |   |  |                                                                                                                                                                                                                                                                                                                                                                                |  |   |   |                                                                                                                                                         |   |   |   |   |                                                                                                                                                           |  |   |   |   |   |
