| <b>Beschreibung / Besonderheiten</b><br>Das stark degradierte, kleine Kesselmoor befindet sich im Naturschutzgebiet "Appelhäger Forst" nördlich des DRK-Bildungszentrums. Störungsursachen sind nicht erkennbar. Die Wasserversorgung des Standortes ist jedoch mangelhaft. Den größten Teil des artenarmen Biotops nimmt die Sumpfreitgras-Staudenflur ein. In der Mitte stockt ein kleiner Torfmoos-Birken-Erlenbruchwald.<br>Der Standort ist großräumig von Laubwald umgeben.                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |                                                                                                                                                                                                                      |                                       |                  |                                                                                                                        |                                                                                                                 |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |   |                                                                                                                        |  |                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                          |   |   |  |  |                                                                                                                       |   |  |  |                                                                                     |  |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                              |  |   |   |   |   |   |   |   |                                                                                                                          |  |   |   |   |   |
