| <b>Beschreibung / Besonderheiten</b><br>Das Quellröhricht befindet sich am Nordrand eines kleinen Laubwaldes westlich der Bundesstraße B 108. Der nasse, eutrophe Standort wird durch Druckwasser im Übergang von der kuppigen Endmoräne (Appelhäger Forst) zum Teterower Becken gespeist. Dominierend ist ein vitales, artenarmes Sumpfseggen-Schilfquellröhricht. Kleinflächig, vor allem im nördlichen Randbereich, treten auch verschiedene Ausprägungsformen des Schilf-Landröhrichts auf. Der Standort ist überwiegend von Laubwald umgeben. Im Norden und Osten schließt intensiv genutzter Acker an. |   |                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                            |                                                                                                                                                                    |                                                |                                                                                                           |                                                                                                           |                                               |                                                                                                                                                        |                                                                                                           |   |                                                                                                                          |                                                                                                           |  |   |                                                                                                                                      |  |   |   |   |   |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                         |  |   |   |   |   |   |   |   |                                                                                                                                                           |  |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                  |  |   |   |                                                                                                                                                         |  |   |   |   |   |
