| <b>Beschreibung / Besonderheiten</b><br>Das kleine, naturnahe Quellmoor befindet sich im intensiv genutzten, stark reliefierten Weideland südöstlich von Kummerow. Der abgezaunte, eutrophe, sehr nasse, z.T. überflutete Standort weist ein gut ausgeprägtes Baldrian-Rispenseggenried auf. Randlich tritt eine Brennessel-Rispenseggen-Quellflur mit viel Rauhaarigem Weidenröschen auf. Das Quellried auf wenig degradiertem Torf hat sich im Bereich eines nach Westen geneigten Flachhanges angesiedelt, es ist gegenüber der Umgebung deutlich aufgewölbt. Im Süden und Westen grenzt ein tiefer Randgraben an, der das herausickernde Wasser kontinuierlich in Richtung Kummerower See abführt. |   |                                                                                                                                                                                                                                                                                                                                       |   |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |                                     |  |  |  |   |  |   |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |   |   |   |   |   |   |   |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |   |   |   |   |   |   |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |
