| <b>Beschreibung / Besonderheiten</b><br>Großflächige, artenarme Feuchtwiese in der vermoorten Swinow-Niederung auf feuchtem Torfstandort, umgeben von Grasland. Ufersegge, Sumpfschilf, Waldsimse, Scharbockskraut, Kriechender Hahnenfuß u. Rohrglanzgras sind die bestimmenden Arten. Stellenweise kommen Blasensegge, Zweizeilige Segge u. Wiesenschaukraut vor. Die Feuchtwiese ist mit nicht geschütztem Grasland verzahnt, das von Gemeinem Rispengras, Rohrglanzgras u. Kriechendem Hahnenfuß gebildet wird. Die Entwässerung des Biotops erfolgt durch Binnen- u. Randgräben, was zu einer Verschlechterung des Standortes führt. von der begräbten Swinow geht ebenfalls eine Entwässerungswirkung aus.                                                                                                                                                                                                                |                                                                                                                                                                                                                            |           |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |           |                                                      |                                                                                                                                                          |   |   |                                      |                   |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                            |   |   |      |   |   |   |   |   |   |   |   |   |  |  |                                                                                                                                          |  |  |  |  |   |   |                                                                                                                                        |   |   |  |   |                                                                                                                                                                                                                                      |   |   |   |   |   |   |   |   |   |   |   |                                                                                                                                                                                                 |   |   |   |   |                                                                                                                                                                                                                                            |  |  |  |   |   |   |   |   |   |   |   |   |   |   |   |   |
