| <b>Beschreibung / Besonderheiten</b><br>In einer Senke angesiedeltes von beweidetem Grünland und Gehölz (Hecke) umgebenes Wasserschwaden-Röhricht auf sehr feuchten bis nassen, vererdeten Torfen (ehemaliges Kleingewässer). Das Röhricht ist artenarm und obwohl es zur eingekoppelten Weidefläche gehört, ist es kaum beweidet worden. Mit Wasserschwaden sind Wasserlinse und vereinzelt vorkommend auch Schwertlilie und Brennessel vergesellschaftet. |   |                                                                                                                                                                                                                                                                                   |   |                          |                                                                                                                          |                                                                                                                                  |                                                                                                                                                         |   |                                                                                                                                                                      |  |  |                                                                                                                                  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |   |   |   |   |   |   |   |   |   |   |   |  |  |  |  |                                                                                                                                                           |  |   |   |   |   |
