| <b>Beschreibung / Besonderheiten</b><br>In einer von Laubwald umgebenen Senke stockt auf wenig gestörten Bruchwaldtorfen ein Steifseggen-Erlen-Bruchwald. Zur Zeit der Aufnahme war der Standort überstaut. Zu der lückigen Krautschicht gehören außer Steifsegge auch Walzensegge und Dorniger Wurmfarne.                                                                                                                                                                                                                                           |   |                                                                                                                                                                                                                                                                                                                                                                                                                              |   |                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                       |                          |   |     |   |    |   |     |   |     |   |     |   |                                                                                                                                                                                              |   |                  |   |                                     |   |     |  |     |  |                    |  |  |  |                                                                                                                                                                                            |  |  |  |  |  |  |  |                                                                                                                                                                                              |  |   |   |   |   |                                                                                                                                                                                                  |   |   |   |   |   |   |   |   |                   |  |  |  |  |                                                                                                                                                                                                  |  |  |  |  |  |  |  |  |  |  |  |  |  |
