| <b>Beschreibung / Besonderheiten</b><br>Artenarmes Sumpfschilf mit Rohrglanzgras und angrenzendem Rasenschmielen-Rohrglanz-Grasland sowie teilweise ausgebildeter Brennessel-Sumpfschilf-Staudenflur in einer nassen, vermoorten Wiesensenke, in der sich eine Wasserfläche ausgebildet hat (angrenzend zum Biotop). Auf dem Luftbild von 1991 ist hier nur ein Graben zu sehen. Es ist also zu vermuten, dass dieser Graben außer Funktion ist und dadurch die Senke unter Wasser steht. Die gesamte Grünlandfläche, in welcher das Biotop liegt, wird extensiv beweidet.                                                                                                                                                                                                                              |                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                               |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                       |                          |              |   |   |   |   |   |   |                                                                                                                                  |  |                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                         |   |   |                                                                                                                                                                                                                            |  |   |   |   |   |   |   |   |   |   |   |                                                                                                                                                                                                                                                                                                              |   |   |   |   |   |   |   |   |                                                                                                                          |  |   |   |   |   |
