| <b>Beschreibung / Besonderheiten</b><br>Die dominanten Arten sind Fiederzwenke, Rotstraußgras und der Rauhhalt-Schwingel. Sie treten kleinflächig in wechselnden Dominanzen auf. Auch das Landreitgras, der Rainfarn, der Feldbeifuß und der Tüpfelhartheu treten in kleinräumig hohen Deckungen auf. Insgesamt ergibt sich das Bild eines mehrfarbigen Flickenteppichs.<br>Außerdem ist die Moosdeckung mit ca. 15 % sehr hoch. Die Fläche verbuscht durch aufkommende Hängebirken, Besenginster und vor allem durch die Gemeine Kiefer. Durch die Biotopfläche verläuft ein unbefestigter Rad- und Wanderweg. Der Standort weist einen armen, mäßig trockenen Sand auf. Im Süden grenzt ein Graben an. Nördlich liegen Nadelwald und Extensivgrünland. Im Osten verläuft eine Straße.<br>Das Biotop liegt im LSG "Mecklenburger Großseen". |   |                  |   |                                                                                                                                                                                                                                                                                                                                                       |   |   |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |                          |                                                                                                                                                                                                                      |   |  |                  |   |   |   |  |  |   |  |  |  |                                                                                                                                                                                                                                                                                        |  |  |  |   |   |   |   |                                                                                                                                                                                                                                      |  |  |  |   |   |   |   |   |   |   |   |   |   |   |   |   |                       |  |  |  |
