| <b>Beschreibung / Besonderheiten</b><br>Naturnaher Weiher mit Großseggenried und Rohrkolbenröhricht in einer ungenutzten Ackersenke südlich von Leppin. Das Biotop befindet sich auf nassem bis sehr feuchtem, nährstoffreichen Torf. Kleinflächig ist offenes Wasser vorhanden. Das Biotop wird großflächig von einer nitrophilen Staudenflur gesäumt und von Acker umgeben. Vor allem im Uferbereich des Weihers wächst ein artenarmes Rohrkolbenröhricht, welches großflächig von ebenfalls artenarmem Uferseggenried umgeben ist. Rohrkolben wächst aber z.T. auch in das Seggenried hinein. Überall ist der Bittersüße Nachtschatten zahlreich eingestreut. Am östlichen Biotoprand wächst ein Silberweiden - Eschen - Gehölzsaum, vereinzelt finden sich Grau - Erlen (am Nord - Rand des Biotops). Eine Gefährdung ist nicht erkennbar. |   |                  |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   |   |                                                             |                                                                                                                 |   |   |                                     |                  |   |                                                                                                                                                                                                                          |              |                  |  |  |  |  |   |  |  |                  |  |                                                                                                                                                                      |  |   |  |  |   |   |  |   |   |                                                                                                                                                                                                                                              |  |  |  |   |   |   |   |                                                                                                                                                                                                                                      |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |                                                                                                                                                                                                                           |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
