| <b>Beschreibung / Besonderheiten</b><br>In der welligen Grundmoräne ca. 1,8 km ostnordöstlich von Weitendorf liegt im Forst Feldberger Hütte eine kleine vermoorte muldenförmige Senke. Sie wurde früher durch einen Graben entwässert.<br><br>In der Senke existierte eine zum Kartierungszeitpunkt stark schwimmende, nicht zu betretende Decke über wassergesättigten organischen Substraten mit einer dichten Sumpffarn-Flur. Der Farn erreichte Deckungswerte über 80 %. Weitere Begleitarten waren kaum vorhanden.<br><br>Im beschatteten Randbereich wuchs etwas Carex remota.<br><br>Das Biotop ist dem FFH-Lebensraumtyp LRT 7140 zuzuordnen. Der Erhaltungszustand wird mit C (durchschnittlich bis beschränkt) eingeschätzt. |   |                                                                                                                                                                                                                                                                                                                                       |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                         |  |                                                                                                                                                                                                                                                    |   |   |                                                                                                                       |  |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |   |   |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |                                                                                                                         |  |   |   |   |   |
