| <b>Beschreibung / Besonderheiten</b><br>Feuchtere Senke in der Elde-Niederung, in der sich aus dem Saatgrasland eine Schlankseggen-Feuchtwiese entwickelt. Eine Teilfläche wird gemäht, die andere beweidet.<br>Auf der beweideten Fläche dominieren Rasenschmielen-Bestände. Obwohl ein großer Anteil der Fläche noch nicht geschützt ist, entwickelt sich die Wiese/Weide bei extensiver Nutzung bald zu einer artenreichen Feuchtwiese. |   |                  |   |                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                            |   |                          |  |   |                                                                                                              |  |  |  |   |   |   |   |  |  |  |  |  |                                                                                                                                 |  |  |  |   |   |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |   |   |   |   |   |   |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
