| <b>Beschreibung / Besonderheiten</b><br>Mit Kiefern aufgeforstete Heide östlich des TUP Karstädt. Die ehemalige Heidefläche ist jetzt teilweise von Jungkiefern dominiert. Es werden nur noch die Flächen als geschütztes Biotop kartiert, auf denen der Anteil der Kiefer unter 30 % liegt. Das Gelände ist wellig bis dünnig. Die Fläche ist moos- und flechtenreich. |   |                  |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |   |   |                                          |   |   |                          |                                                                                                                                                                   |                                                                                                                                                                                                                            |  |  |   |   |   |                                                                                                                                                                   |  |                                                                                                                                                                     |  |   |                  |   |   |  |  |                                                                                                                                                                     |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |   |   |   |   |   |   |   |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |
